GIANT-VAC[®]

LEAF & DEBRIS MANAGEMENT

"SIMPLY THE BEST"

***WHAT IT TAKES TO BE
"SIMPLY THE BEST"***

For over 30 years, Scag® has been the definition of quality and performance in commercial lawn mowers and lawn maintenance equipment. Today, Scag Giant-Vac® combines decades of experience with solid engineering and quality craftsmanship to create industry-leading leaf and debris equipment. We keep our products steps ahead of the rest so you can stay steps ahead of your competition.

WHEELED BLOWERS

MULTIPLE OPTIONS, ONE EXCEPTIONAL RESULT

Serious jobs require serious equipment, and with a Scag Giant-Vac® Wheeled Blower, surface clearing has never been easier. With multiple options to choose from, you've got dependable, powerful choices at hand. Featuring top-quality components and superior construction, these low-maintenance blowers are user friendly and designed to meet the needs of homeowners, landscapers, golf courses and municipalities.

KEY FEATURES

- Heavy-duty construction for dependable strength and long life
- Impeller is dynamically balanced for smooth operation and optimum performance
- 2-degree blower tilt angle enhances ability to get airflow under leaves without losing ground clearance
- Comfortable Sure-Grip foam wrap around tubular steel iso-mounted handles
- Commercial-grade throttle control
- Dual-directional discharge nozzle for better control over debris dispersal
- Remote discharge control on handlebar (Extreme and Extreme Pro)
- Heavy-duty 3/4" solid steel axles
- Tie-down bracket and lift handle (Extreme and Extreme Pro)
- Engine features low-oil shutoff

NEW EXTREME ENGINE OPTION

New Honda GX270 engine option for the Extreme. Powerful and quiet with low fuel consumption and low emissions. Precision balanced engine provides exceptionally smooth performance.

THROTTLE CONTROL

Commercial-grade, all-steel mechanical throttle control features a plastic debris cover for worry-free performance.

LBX15 shown

DISCHARGE CHUTE

Large discharge openings are positioned only 2" off the ground for better debris lifting. Front and side discharge adjustment via a simple lever. Extreme and Extreme Pro also have an adjustable discharge angle via a remote handle on the handlebar.

VACUUMS

PRODUCTIVITY IS IN THE BAG

When the task calls for a direct capture vacuum, make the Scag Giant-Vac® Yard Vacuum your go-to machine. Its heavy-duty construction and simple-to-use operation provide years of reliable, productive performance. Designed with a debris-reducing impeller and an E-Z on/off wet/dry bag, this vacuum has the power to make quick work out of the toughest jobs, in all conditions.

KEY FEATURES

- Large-diameter handle with comfortable foam grip
- 14" wheels with sealed ball bearings
- Commercial-grade throttle control
- 10-gauge, all-steel welded housing with strong 7-gauge top for engine mount
- Easy-to-use intake height adjustment lever on handlebar
- EZ on/off 8-bushel debris bag with adjustable venting
- Engine features low-oil shutoff
- 10' Hose Kit available as an accessory for landscape beds, flower boxes and islands; no-tool installation and removal

HEIGHT ADJUSTMENT

Convenient intake height adjustment handle is mounted within easy reach on the handlebar for operator convenience.

INTAKE

26" wide intake features five height positions to match different job needs.

TRUCK LOADERS: SKID MOUNTS

TLS20-18BV shown with swing-away hitch-mount accessory. Actual product may differ from photos.

POWER UP TO GET THE JOB DONE

Our Skid-Mounted Truck Loaders are known for their reliability and productivity. With convenient, single-operator functionality and robust, heavy-duty components, Scag Giant-Vac® Skid-Mounted Truck Loaders mean greater uptime and higher efficiency for your operation. Featuring replaceable wear liners, a quick-detach hose for easy transport and cleaning, and an optional swing-away hitch-mount accessory, Scag Giant-Vac Truck Loaders are geared to help get the job done.

KEY FEATURES

TLS20-18BV shown

- Heavy-duty, all-steel welded construction
- 20" diameter, welded steel impeller with thick steel blades
- Replaceable ¼" wear liners in blower housing
- Easy rear access to wear plates and impeller
- Reliable electric start (battery included)
- Adjustable hose boom and spring-pin transport lock
- Ambidextrous nozzle handle
- Comes standard with 4" skid risers; swing-away hitch-mount option available (TLS20-18BV)
- Quick-detach hose for quick and easy transport, storage and cleaning
- Transport lock pin secures the intake nozzle to the loader when not in use
- Optional Halogen Light Kit available

Below: Optional Swing-Away Hitch-Mount Accessory (available for TLS20-18BV model only).

TRUCK LOADERS: TOW BEHIND

TL20W-29BV shown. Wheel chocks and cone available as optional accessories.

HIGH PERFORMANCE MEETS HEAVY-DUTY DESIGN

If you're looking for exceptional efficiency and durable design, these rugged and reliable highway-ready loaders have you covered. Scag Giant-Vac® Tow Behind Truck Loaders feature a heavy-duty, welded steel impeller, debris-reducing design and easily replaceable bolt-in wear liners. Featuring two engine options and a reassuring 2-year warranty, these tough and powerful truck loaders are ready to start loading up the profits.

KEY FEATURES

- 20" diameter welded steel impeller with 3/8" thick steel blades
- Adjustable hose boom with chain support and spring-pin transport lock
- Convenient bolt-in replaceable 1/4" steel wear liners
- Rear access to wear plates and impeller
- Reliable electric start (battery and all-weather box included)
- Ambidextrous nozzle handle
- Torflex® (2,000 lbs.) heavy-duty axles
- Highway ready*:
 - Fenders, safety chains, tail lights, side markers and license plate bracket
 - Optional Roadside Package (traffic cones and wheel chocks with holders)
- Front swivel jack with wheel and rear stand
- Standard 3-hole tool rack
- Height-adjustable 2" ball hitch standard; will also accept a pintle hitch or 2 5/16" ball hitch
- 3-position adjustable-length trailer tongue
- Transport lock pin secures the intake nozzle to the trailer when not in use
- Various accessories available

TRUCK LOADERS: INDUSTRIAL TOW BEHIND

TLB25-48KBD shown with optional brake kit.

WHEN YOU REALLY NEED TO "BRING IT"

When only the toughest, most powerful equipment will do, the Scag-Giant Vac® Industrial Tow Behind Truck Loader delivers. Designed to handle the needs of even the most demanding professional landscapers, golf courses and municipal operations, our Industrial Tow Behind Truck Loaders represent the pinnacle of power and performance. Featuring an ultra-duty impeller with ½" thick blades, commercial-grade hose boom and three powerful engine options—this machine means business.

KEY FEATURES

- 25" diameter welded steel impeller with ½" thick steel blades
- Adjustable hose boom with chain support and spring-pin transport lock
- Convenient bolt-in replaceable ¼" steel wear liners
- Reliable electric start (battery and all-weather box included)
- Ambidextrous nozzle handle
- 4-ply tires with Torflex® (3,500 lbs.) heavy-duty axles
- Highway ready*:
 - Fenders, safety chains, tail lights, side markers and license plate bracket
 - Standard Roadside Package (traffic cones and wheel chocks with holders)
- Front swivel jack with wheel and rear stand
- Standard 3-hole tool rack
- Height-adjustable 2 5/16" ball hitch (35BV & 37CH) or pintle hitch (48KBD) standard
- 3-position adjustable-length trailer tongue on TLB25-35BV and TLB25-37CH models
- Transport lock pin secures the intake nozzle to the trailer when not in use
- Various accessories available
