TURF TIGER II

RECHARGED AND STILL LEADING THE PACK

The all-new Turf Tiger™ II stands heads and tails above the crowd in power, durability and performance. This industry benchmark has been re-engineered to be as easy on the operator as it is efficient on tough jobs in the field. No matter how challenging the terrain and cutting conditions, the Turf Tiger II makes mowing a snap. From its extra strength double-tube steel frame to the dual 16-cc hydraulic pumps and high-torque wheel motors, this cat is ready for action. The Turf Tiger II features the exclusive Command-Comfort Operator Station with 4-point iso-mounted torsion spring suspension seat and Quick-Fit™ adjustable steering control levers to make your time spent in the driver's seat more comfortable and more productive. With speeds up to 12 mph*, huge horsepower engines, a larger-capacity fuel tank and a heavy-duty hydraulic oil cooler, the Turf Tiger II is geared up to take the "hard" out of hard work.

*Ground speeds vary by model configuration.

TURF *Tiger* II

TURF Tiger II

" I researched Scag and other mowers for 5 years before I bought my Turf Tiger. Could not ask for a better mower. When I buy another mower, you can bet it will be a Scag!!! "

MIKE POTTS
COLUMBIA, TN

ZERO-TURN RIDER

SCAG

- High-strength, double-tube steel frame ensures a solid foundation for years of reliable service; replaceable front caster wheel weldment.
- Cutter deck driveshaft system provides consistent, reliable power and a wide cutting height range; deck cutting heights range from 1" to 6" in 1/4" increments.
- Heavy-duty drive system features dual 16-cc pumps and high-torque wheel motors for responsive, dependable power.
- Up to 12 mph forward speed for maximum productivity.
- Large-capacity hydro system includes a large oil cooler to increase hydraulic component efficiency and extend system life; pump cooling fans further cool the hydraulic system.
- Fabricated, welded and reinforced Velocity Plus™ cutter deck is ultra-strong and true commercial-grade. Tri-Plate deck is nearly 1/2" thick.
- ROPS (Roll-Over Protection System) standard equipment, featuring low hinge point for easy transport and storage.
- Convenient cup holder keeps beverage within reach.
- Large caster wheels feature tapered roller bearings in axles and pivots for long life; lip seal keeps grease in and dirt out.
- Flat-free caster tires reduce maintenance costs and keep you in the field, cutting grass.
- Large 26" drive tires deliver superior traction and a smooth ride.
- Command-Comfort™ Operator Station features unprecedented levels of adjustability and ergonomics. This individualized system fights fatigue and provides maximum comfort and convenience.
 - 4-point rubber iso-mounted torsion spring suspension seat adjusts to operator's weight to provide superior comfort. Seat features full padding, forward / rearward adjustment, high back, adjustable armrests and adjustable back angle.
 - Quick-Fit™ steering control levers are fully adjustable to provide a custom fit for maximum comfort.
 - 3-position deck lift foot pedal allows individualized comfort for operators of all heights.
- Foot-operated parking brake allows the operator to apply the brake without removing hands from the steering controls. AUSCO disc brakes for reliable performance.
- Ultra-low center of gravity makes the Turf Tiger™ II surefooted on a wide variety of terrain.
- Large-capacity, single fuel tank with a large angled neck for easy filling. Tank provides hours of cutting without refueling; 12-gallon capacity. Tank is mounted under the seat to lower the center of gravity for better stability and handling.
- Tiger Eye™ Advanced Monitoring System keeps a constant, real-time "eye" on important system functions of the Turf Tiger II. (Specific functions vary by mower model and engine.)

FUEL INJECTION

MAXIMIZE POWER AND REDUCE FUEL COSTS

The Scag® Turf Tiger™ II is available with an air-cooled Kohler Command Pro EFI engine. This engine is equipped with closed-loop electronic fuel injection (EFI) to reduce fuel consumption and maximize power. The Turf Tiger II can also be outfitted with a Kawasaki FD791D-DFI (digital fuel injection) liquid-cooled engine that optimizes fuel economy and maximizes your profitability.

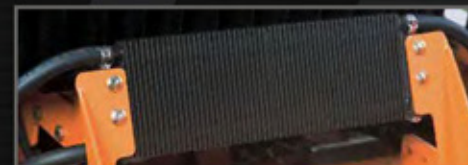

Dual 16-cc Hydro-Gear pumps power this dependable drive system. Pump shock valves ensure reliability and long life. Cooling fans help maintain safe operating temperatures.

Heavy-duty driveshaft delivers solid, dependable power to the cutter deck. Specially engineered for ease-of-maintenance.

Heavy-duty Ogura GT3.5 clutch features 250 ft/lbs of holding strength and GT5 (350 ft/lbs) on 35RV models. Adjustable air gap for long service life.

Oil cooler keeps hydraulic temperatures low for efficient operation, added reliability and long component life.

TURF TIGER

PROPANE &
DIESEL-POWERED

THE ULTIMATE IN POWER & PERFORMANCE

The Turf Tiger™ stands heads and tails above in power, durability and performance. No matter how challenging the terrain, the Turf Tiger makes mowing a snap. From its extra strength double-tube steel frame to the dual 16-cc hydraulic pumps and high-torque wheel motors, this cat is ready for action. The Turf Tiger features our exclusive Command-Comfort™ Operator Station with adjustable torsion spring suspension seat and Quick-Fit™ adjustable steering control levers to make your time spent in the driver's seat more comfortable and more productive.

The Turf Tiger is available with a Kohler CH730 propane-powered V-Twin engine option to meet clean air regulations in affected areas.

Actual products may differ from photos.

A strong 25-hp, 3-cylinder Kubota diesel is available on the Turf Tiger to provide heavy-duty, high-torque performance.

ZERO-TURN RIDER

- High-strength, double-tube steel frame ensures a solid foundation for years of reliable service; replaceable front caster wheel weldments.
- Cutter deck driveshaft system provides consistent, reliable power and wide cutting height range; Velocity Plus™ deck cutting heights range from 1" to 6" in 1/4" increments.
- Heavy-duty drive system features 16-cc pumps and high-torque wheel motors for speeds up to 10.5 mph.
- 4-quart hydro system includes large oil cooler to increase efficiency and extend component life. 21CH-LP model includes pump-mounted cooling fans.
- Large drive tires deliver excellent traction and a smooth ride. Diesel model: 24" tires. LP model: 23" tires.
- Fabricated, welded and reinforced Velocity Plus cutter deck is ultra-strong and truly commercial grade. Tri-Plate deck is nearly 1/2" thick.
- Command-Comfort Operator Station features unprecedented levels of adjustability and ergonomics. 1) Adjustable torsion spring suspension seat, 2) Quick-Fit steering control levers, 3) 3-position deck lift foot pedal.
- Diesel model: Large-capacity, single fuel tank is mounted under the seat to lower the center of gravity for better stability and handling.
- LP model: Single 33.5-lb / 7.9-gallon standard industrial aluminum LP tank mounted above the engine.

SCAG

CHEETAH

SIT BACK AND ENJOY THE RIDE

The Cheetah™ is the fastest mower in our line-up. It performs at ground speeds up to 16 mph in high range, and 12 mph in low range without compromising your comfort on the job. Designed with a coil-over shock Operator Suspension System that offers five easily adjustable settings and a rubber iso-mounted seat, this machine won't leave you aching at the end of a long, hard day of work. The Cheetah's suspension system design is also the simplest in the industry, with only three moving parts. All four deck sizes — 48", 52", 61" and 72" — come standard with the Velocity Plus™ deck for exceptional quality-of-cut and years of dependable performance. This cool cat is a serious top performer for any sized property.

CHEETAH

CHEETAH

Riding a mower for 8 hours a day is one of the worst things you can do for your spine and back. I'll do anything I can to relieve some of that pain and stress. The suspension system on the Cheetah is genius, and is what sold me on this machine. The Cheetah's suspension has made my body and back feel better, which is more important than I can explain. In this business, your body is everything, and when your body goes, you're done. If Scag can make a mower that prolongs my business career, then I'm a lifetime buyer. Thanks again, Scag.

COLE KNEHANS

KNEHANS LAWN AND LANDSCAPE
HIGGINSVILLE, MO

48" / 52" CHEETAH

Cheetah™ models with a 48" or 52" Velocity Plus™ cutter deck feature Hydro-Gear ZT-3400 transaxles, 23" drive tires, ground speeds up to 10.5 mph and 10-gallon fuel capacity.

ZERO-TURN RIDER

SCAG

- Quick-Fit™ steering control levers (61" and 72" models only), the Operator Suspension System, and a spacious footplate reduce fatigue for comfortable operation.
- Double-tube mainframe (61" and 72" models only) makes the Cheetah tough, durable and dependable year after year.
- Extra-low center of gravity gives the Cheetah surefooted stability on a wide variety of terrain.
- Fabricated, welded and reinforced Velocity Plus™ cutter deck is ultra-strong and truly commercial grade. Tri-Plate deck top is nearly 1/2" thick.
- Patented deck-leveling adjustment bracket lets you quickly level the cutter deck with the turn of a bolt.
- A choice of Kawasaki FX, Kohler, or Briggs & Stratton air-cooled engines give the Cheetah plenty of power.
- Dual tanks provide up to 15-gallon fuel capacity (10-gallon capacity on 48" and 52" models) to keep you mowing for hours, ensuring better productivity.
- Heavy-duty Ogura GT3.5 clutch provides 250 ft/lbs (Ogura GT5 on 35CV-EFI and 31FX models provides 350 ft/lbs) of holding strength and features an adjustable air gap for long service life.
- Adjustable three-position steering lever dampener mounting lets you customize the feel and responsiveness of the controls for easier operation.
- Dual integrated Hydro-Gear transaxles give you responsive, dependable power; a cooling fan on each unit keeps operating temperatures low.
- Large capacity hydraulic system increases component efficiency and extends system life.
- Extra-large drive tires provide dependable traction and a smooth ride.
- 6" wide, flat-free front caster tires have tapered roller bearings in the axles and pivots for long life; lip seals keep grease in and dirt out.
- Tiger Eye™ Advanced Monitoring System keeps a constant, real-time "eye" on important system functions of the Cheetah. (Specific functions vary by mower model and engine.)
- Integrated tie-down locations make securing the Cheetah on a trailer simple.

OPERATOR SUSPENSION SYSTEM

Isolates the operator station from the effects of rough terrain. A coil-over shock provides effective suspension action right where it's needed, and only where it's needed, for a smooth ride. Adjust the suspension system on the fly from firm to soft with a selection of five settings to match your personal preference.

This ultra-simple design utilizes only three moving parts to cushion the operator while maintaining the structural integrity of the mower's frame. Most importantly, this suspension system has no negative effect on the quality-of-cut.

The comfortable, contoured seat features rubber iso-mounts at four points to absorb vibration and increase comfort.

Two-speed selector (61" and 72" models) lets you choose either low-range to travel up to 12 mph or high-range for up to 16 mph. The single-speed transaxles on 48" and 52" models deliver speeds up to 10.5 mph.

Adjust the height-of-cut in seconds from 1 1/4" to 5" right from the seat with the improved vertical facing, foot-operated cutting height adjustment with convenient, adjustable, three-position foot pedal.

SCAG

TIGER CAT II

TIGER CAT II

EARN YOUR STRIPES

Re-engineered from the ground up, the all-new Tiger Cat® II has set a new benchmark for mid-sized zero-turn riders. Highly maneuverable and equally tough and productive, this machine makes quick work of open areas with speeds up to 12 mph, while also easily getting through tight spots. With a heavy-duty tubular steel frame, the Velocity Plus™ deck, a more powerful drive system and larger capacity fuel tanks, this mower delivers it all in big cat style. Featuring a low center of gravity and large 24" drive tires, the Tiger Cat II provides the stability and traction you need for challenging terrain. A weight-adjustable torsion spring suspension seat with 4-point rubber iso-mount ensures a comfortable ride as you get the job done.

TIGER CAT II

I have used Scag mowers for over 26 years. In my experience, Scag is the best made zero-turn and gives me less downtime than any other mower brand.

SCAG

- Heavy-duty tubular steel frame provides a solid foundation for years of reliable service; replaceable front caster wheel weldment.
- Fabricated, welded and reinforced Velocity Plus™ cutter deck is ultra-strong and truly commercial-grade. Tri-Plate deck is nearly 1/2" thick. Powerful drive system features dependable design, while dual 12-cc pumps and high-torque, cast-iron wheel motors ensure reliable power.
- Up to 12 mph forward and 5 mph reverse ground speeds make quick work of tough jobs.
- Low center of gravity delivers sure footing on a variety of terrain.
- Torsion spring suspension seat on most models adjusts to operator's weight to provide superior comfort. Seat features full padding, forward / rearward adjustment, high back, adjustable armrests and adjustable back angle. Some models feature a "Soft-Ride" seat.
- 4-point rubber iso-mounting provides additional comfort to the seat.
- 9.5-gallon approximate fuel capacity for hours of cutting time. Large fuel tank filler neck allows for quick refueling. Fuel tank features a molded-in cup holder for extra convenience.
- Large 24" drive tires ensure solid traction and curb climbing ability.
- Foot-operated parking brake allows the operator to apply the brake without removing hands from the steering controls. AUSCO disc brakes for reliable performance.
- Large caster wheels feature tapered roller bearings for long life. Lip seals keep grease in and dirt out.
- Tough idler pulley system features all-steel pulleys, high-quality bearings and pulley bearing debris guards for long, reliable service.
- Tiger Eye™ Advanced Monitoring System keeps a constant, real-time "eye" on important system functions of the Tiger Cat® II. (Specific functions vary by mower model & engine.)
- User-friendly design provides simple operation and allows easy access for maintenance.
- Air-filtration systems ensure clean engine air for maximum power and long life; heavy-duty remote canister filter on Kawasaki FX and Kohler engines; cartridge-style filter on Kawasaki FS engine.
- All Tiger Cat II models include standard twin-stick steering controls, pneumatic (air-filled) front caster tires and foldable Roll-Over Protection System (ROPS).

PRODUCTIVE ACCESSORIES TO CUSTOMIZE YOUR TIGER CAT

You can increase the productivity of your Tiger Cat II using any of these optional accessories: grass catchers, flat-free caster tires, Quick-Fit™ steering levers, mulching systems, Tiger Striper, Operator-Controlled Discharge Chute (OCDC), chrome wheel covers, trailer hitch and halogen light kit.

Operator-friendly instrument panel includes a conveniently located ignition switch, cutter deck engagement switch, choke, throttle controls and Tiger Eye Advanced Monitoring System.

High torque, cast-iron wheel motors ensure dependability. Heavy-duty drive system is designed for reliability.

Heavy-duty Ogura GT3.5 clutch features 250 ft/lbs of holding strength. Adjustable air gap for long life.

Entire foot plate area lifts to provide complete access to the top of the deck for easy servicing.

Adjustable, 3-position foot pedal deck lift makes changing the height-of-cut fast and easy. Adjusts from 1" to 5" in 1/4" increments.

Rugged 12cc hydraulic pumps feature pressure relief valves and top-mounted fins for added reliability and longer life.

Liberty Z shown with optional arm rest kit

LIBERTY Z

By SCAG

Love my new Scag Liberty Z. I find myself mowing just to be in this BEAST of a machine. I have had [other brands] prior to purchasing my Scag. I wish I would have known of Scag before. I recently let my neighbor use my mower to compare against his. His reply was, 'I'm going to put mine up for sale and buy a Scag'. He was sold after the first cut. When I buy something, performance, overall strength and cost are important factors. Scag has outdone themselves with the Liberty Z.

CHUCK B.
WILLIAMSBURG, VA

ZERO-TURN RIDER

SCAG

- Low-maintenance mower design reduces grease points for owner convenience.
- Fully fabricated and welded 48" or 52" cutter deck with anti-scalp rollers provides a beautiful quality-of-cut. This is the same proven deck design found on the Freedom Z models.
